REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Boards and Citizens of the Tilton Town and Union School Districts:

I herewith submit to you my first annual report as superintendent of schools. Much of my time during the half-year I have been with you has necessarily been taken in attending to the routine work and in getting acquainted with school conditions. This report will be limited to recording certain things which ought to find a place in every school report and to making a few specific suggestions.

TOWN DISTRICT

One of the indications of a good school is good attendance. The per cent of attendance for all schools for the year ending June last was 92. The total number of tardinesses was 230. We ought to improve in this particular. The general attendance since the opening of schools in September has been good. Our total enrollment at the present time is 72. One year ago it was 73.

Two new teachers began work in September: Miss Helen Duguid at No. 4 and Miss Laura Wyatt at Sanborn Road. Miss Duguid had had but one year's experience in teaching, but she has proved herself capable and has conducted her school in a very creditable manner. Miss Wyatt has been no less successful.

Special work in music is now being done in all the schools under the direction of Miss Estelle Clifford who is supervisor of music in the Franklin schools. Miss Clifford visits

each school once in two weeks. Her work is admirable. I hope the arrangement may be continued.

Six pupils from this district completed the course at the Union school in June last. Five of these entered the Seminary in September. One other pupil finished eighth grade work at the Highlands and was admitted to the Seminary. At the opening of the school year there were 18 boys and girls from this district attending the Seminary and two attending Franklin High School.

The plan of sending eighth grade pupils from the Lochmere and No. 4 schools to the Union school has been continued. There are now six such pupils. While the advantages of this arrangement are apparent I am inclined to think that the Lochmere children might better continue their work in their own school. This school is well equipped to do the work and there is certainly some advantage in keeping children of that age nearer home.

The school buildings are in excellent shape. The No. 4 and Lochmere buildings are certainly a credit to any community. I would suggest, however, that the wooden blackboards now in use at No. 4 be replaced with slate and that more be added.

Following the adoption of the medical inspection act by the district Dr. E. F. Houghton was appointed school physician. Dr. Houghton made an examination in the fall of the sanitary condition of the school buildings and yards and reported the conditions good in all cases. He also made a physical examination of all the school children except those excused by request of parents. The value of this work depends almost entirely on the response of parents to the reports of the physician. The discovery of physical defects will not amount to so very much unless an effort is made to correct them. There should, also, be some way of following the matter up.

I feel that the general condition of the schools is good. They are running smoothly. The children are all happily at work and to some purpose.

UNION DISTRICT

The attendance for the year ending in June last was excellent. I refer you to the statistical table printed on another page for the detailed statement. The per cent of attendance for all grades for the year was 94. The total number of tardinesses was 302. Thirty-two pupils were neither absent nor tardy during the year. The attendance since the opening of schools in September has been equally good. Our enrollment at present is 358. One year ago it was 313. This shows an increase of 45. The following table will show the distribution of these pupils by grades together with other data:

Grade	Teacher	Salary per Week	No. of Pupils
I.	Olive C. Duguid,	$12.00	56
II.	Ethel M. Colby,	12.00	49
III.	Mary E. Foss,	15.00	42
IV.	Catherine M. Gile,	14.00	44
V.	Alice A. Bailey,	13.00	42
VI.	Luthera W. Abbott,	15.00	48
VII.	Florence M. Shaw,	15.00	36
VIII.	J. A. Whipple, Principal	25.00	41
Special Teachers:			
	Drawing, Manual Arts, and Assistant, Helen M. Watson,	13.00	
	Supervisor of Music, Ethel S. Worthen,	4.00	

Probably the best work can be done in a school room not having an enrollment of over 35 or 36 pupils. You will note that the enrollment in all but one of the rooms

exceeds this number. The average for the eight rooms is 44.75.

In June last 33 pupils completed the work of the Union School. Of this number 6 were pupils from the Town district. Of the total number graduating 25 entered Tilton Seminary. This would seem to be a creditable showing. In our state as a whole nine out of every ten children completing a grammar school course enter a secondary school.

The total number of pupils from the Union district attending the Seminary at the opening of the school year in September was 68. Tilton is fortunate in having accessible to the boys and girls of secondary school age so excellent a school. While the district must assume a large share of the financial obligation there remains in the case of each child attending an appreciable amount which the individual parent must pay, and which may, in some cases, be a burden sufficient to prevent a child securing a secondary school education. I wish that the district might see its way clear to assume the entire financial obligation and to offer to every boy and girl qualified a free course of four years at the Seminary.

The evening school has been in session for three evenings a week for ten weeks. Contrary to the policy pursued last year no eighth grade pupils were admitted. An endeavor was made to thoroughly advertise the school before the opening and to interest as many as possible. The work was planned to meet the individual needs of those attending. For instance, one young man was anxious to take the civil service examination. We tried to make his work of direct assistance to him in his preparation. The work was carried on during the first part of the term with Mr. Whipple and Miss Shaw as teachers. Later, as

the number in attendance diminished, it was found possible for Mr. Whipple to do the work alone. The expense of the school outside of lights and extra heat was approximately $125. In spite of our efforts to arouse and maintain interest the total number enrolled was only 24. Moreover, of this total there were seven who attended only three sessions or less, and the average attendance for the last four weeks was but five per session. There would seem to be some question whether there is any real call for an evening school in Tilton.

If the work in wood-working for the boys of the upper grades is to be continued it ought to be put on a more satisfactory basis. Of the practical and educational value of such work there is no question and it ought to have a place in our school system. Our equipment is meagre. The room assigned to this work is on the third floor just off the assembly hall. It is impossible to heat it in winter. The light is exceedingly poor. The room is in no way adapted to this purpose. Following the policy of last year this special work with the boys was carried on during the fall term under the direction of Miss Watson, but it was found advisable at the beginning of the winter term to give this work up, in part because of the reasons above cited, and in part because more of Miss Watson's time was demanded in assisting with the regular work in the overcrowded rooms.

The afternoon session of our schools is a short one. It did not seem to me necessary that fifteen or twenty minutes of the time be devoted to recess. We are trying the experiment this winter term of no afternoon recess for the four upper grades.

It may not be out of place for me to suggest certain repairs for which I think the conditions call. The school

hall needs freshening and redecorating. As a matter of fire protection the door leading into the boiler room should be covered with some fireproof material. The fence on the west side of the school yard is very much in need of rebuilding. There should be constructed an entrance into the boys' side of the basement from the school yard.

Unexpectedly the district received from the state this year a rebate on high school tuition paid. The amount of this rebate was $246. The district should have received from the state through the town of Northfield approximately $375 as "state aid." That we were entitled to this was discovered too late to make it available for this year, but it will be paid over by the state at the time of settlement next year.

I am aware that we are all busy people. There are many calls on our time in the interests of the general welfare. We already have organizations which are interested in varied phases of our community and state life. I cannot refrain from calling your attention to one type of organization which is doing an immense amount of good for the schools in many localities. I refer to what are known as parent-teacher associations. I believe that some such association here, embracing the whole community, might be made a very helpful influence in bringing the homes and schools into closer touch with each other and in fostering that co-operation which we all know is so much to be desired.

I wish to express to the school boards and teachers my appreciation for their encouragement and support which have made my work a pleasure.

Respectfully submitted,

CHANNING T. SANBORN,
Superintendent.
